Gentlemen:

Your seed cabinet is the best and most efficient piece of equipment that came in our store during the year. Our customers are really interested in seeing how the seeds are dispensed, I have often wondered if some of our customers did not buy seeds just to see us use the sips.

Your seed cabinet has at least tripled our seed sales without any increase of time used in selling the seeds. I feel quite sure that with the response we had this year, that we can even do better next year, at least I will gamble on this and place a larger spring order.

With an even bigger and better seed year in '48.

I remain,
 Lionel M. Lamoureux, Mgr.

Note: By 1949 the name Woodruff Seeds will be all over Spencer.

Gentlemen:-

Most every customer remarks about the beautiful cabinet, it is unique and with the picture of every seed in front of you makes selling of the seed so easy and you save more than half of your time as to the old methods of weighing the seed or using a graduated scale.

We have found out that it is the best arrangement we have ever had in selling garden seed and we have been selling loose seed for over thirty five years. Just a dip and the sale is completed with a nice profit.

Yours very truly,
 GATES HARDWARE

Dear Sirs:

Our customers remark of it's beauty and like the system. We were skeptical about what their reaction would be but it has all been complimentary. Sales are increased by quick recognition of vegetables from your beautifully illustrated tables.

It has had a remarkable effect on our sales force. Seed customers are now waited on with enthusiasm instead of being avoided. This enthusiasm is redisted to the customer and helps immeasurably in selling allied items.

Yours very truly,
 THE CHANDLER HARDWARE CO.

Gentlemen:

With this new service, besides being an attractive silent salesman it is a great room saver, making it very easy to sell and in using the dip system we find we can offer faster service to everyone.

I feel this to be the best sales helper and room saver in the field for the small or large store selling seeds.

Yours very truly,

Eli Posner

PROTECT SEEDS
WITH

Spergon

A new fungicide for treating seeds, with resulting increases in stand and yield. Suitable for any kind of seeds, it is SAFE for delicate seeds and safer for the operator, PROTECTS against "damping off" and seed decay, STIMULATES growth, healthy plants and higher yields. It may be used with inoculants, and peas treated with it require no graphite. It retains its strength, coats evenly, adheres well. Contains no mercury or copper.
